Data Management Culminating Project – DATA COLLECTION

Data must be collected and presented in a case table in Fathom. The printed hard copy of your assignment must also include a description of the sampling technique(s) used to collect the data, histograms of both the dependent and independent variables, a scatterplot of the data, **your marked proposal**, the information from your proposal presented in a textbox in Fathom, and a complete list of references to be used.

The following marking scheme will be used to grade the data collection.

Case Table   **/2**
Sampling Technique   **/1**
Histograms   **/2**
Scatterplot   **/1**
Marked Proposal   **/1**
Textbox Proposal   **/1**
Reference List   **/1**
Overall Work   **/1**

TOTAL   **/10**
