ISP Proposal

Should answer the following questions:

What is the area of study you intend to investigate?

Why did you choose this particular topic?

What is the source for your data? (give the specific website)

How many pieces of data are in your set? (looking for at least 100 per attribute)

Based on your preliminary search for data, your hypothesis is:

* Be sure that your data is appropriate and sufficient for the analysis that will follow
** The hypothesis statement should follow the form we discussed in class
